"Whoso stoppeth his ears at the cry of the Bazaar, he also shall cry himself, but shall not be heard." Prov. XXI: 13.

A young lady telegrapher, who uses the Morse system, should not object to being called a girl of the period.

Prince George is summing at Newport, R. I., and the young ladies residing at that popular and fashionable summer resort are swearing "by George."

Kentucky held an election last Monday which was so quiet that nobody outside of the state heard of it until the day following. The usual big democratic majority was rolled up without the use of a Force bill.

The hardy pioneers of Western Kansas who have been afflicted with drouth and legislation of the McKinley stripe, are now threatened with an invasion of grasshoppers. It is a true saying that misfortune never comes single.

A stringent law of New York forbids, under a heavy penalty, the publication of the details of the death penalty. Yet, the New York World printed eighteen columns of the Kemmler electrocution. Thus, it seems that this law did not work any better than the law providing for the execution of murderers by electricity.

The Quaker City Press gives the following hot weather advice to the Philadelphians: People must not hurry, nor worry, nor work hard. They must live chiefly on a carefully selected and well prepared vegetable diet. Ripe melons and grapes are to be freely used, with cantaloupe for breakfast. Ice water is to be sipped, but cold beer is recommended in moderation, but hot soup for lunch.

That is a remarkable case of over-  
sight on the part of the war depart-  
ment reported from Atchafalaya. It ap-  
pears that Thomas Williams, a soldier,  
has been discharged from the service in  
1863, but not legally mustered out  
until a year ago. He has just col-  
lected back pay for the full time  
amounting to \$36,503. In addition  
receives a pension for disability of  
2 per month.

The world is jogging along. Old  
Ber Blair, of New Hampshire, said  
the senate that under certain cir-  
cumstances he might be induced to vote  
free iron. He said that if he  
were to vote to free the interests  
of the people of New England under  
metal schedule he should vote to  
free ore. He did not know but  
as his duty to vote to make both  
and iron free. Great Jupiter!  
comes pretty near being heresy  
asked heresy!

the Czar of Russia shall persist  
in decree expelling the Jews from  
omission, he will be guilty of a  
crime against humanity that might  
call for protest from the other  
peoples of the world. It is recalled  
the representations of this gov-  
ernment twenty years ago resulted  
in revocation of a similar decree by  
father of Russia's present ruler,  
not out of harmony with inter-  
national relations that some such  
action should be taken in this in-  
stance.

Senator Hoar's "fifty cents a day

and codfish" declaration is already  
causing its author much uneasiness.  
His enemies are publishing it abroad  
to the world with an enthusiasm that  
makes the cherubic face of the Mas-  
achusetts senator blank with dismay.  
Rivals for Hoar's senatorial seat are  
making the most of his slip of the  
tongue as a good piece of political  
capital against him. If in conse-  
quence he should lose his senatorship,  
he would have abundant chance in the  
retirement of private life to reflect  
that he is not the only politician who  
was ever "killed by an epigram."

The electrocution of Kemmler has  
brought out much learned discussion.  
Enough has been developed, however,  
to show that there is need for more in-  
vestigation as to the potency and the  
certainty of the electrical current, and  
for the more reliable arrangement of  
the scientific apparatus, before elec-  
trical execution can be accepted as  
the wisest and most effective method  
for taking the lives of murderers. It  
seems that the alternating current  
that was used in this instance is cap-  
able of destroying life surely. That  
when properly applied, it can be made  
to accomplish that result quickly and  
painlessly, will be generally believed.  
Society insists that "whoso sheddeth  
a man's blood, by man shall his blood  
be shed," but the modern punitive  
spirit is imbued with mercy as well as  
with stern justice. It was with the  
wholesome desire that capital punish-  
ment shall be as far as possible devoid  
of cruelty and unnecessary suffering,  
that electricity was summoned to the  
aid of the law. Whether it can meet  
those ends must now be the subject of  
further scientific and legislative con-  
sideration.

## ENFORCE THE LAW!

The man who publishes or vend-  
s an obscene or immoral newspaper is a  
criminal who should be punished.  
There is very little difference between  
the manufacturer of a compound to be  
used for criminal purposes and the  
man who retails it. The laws of the  
State of Missouri are plain and to the  
point on this subject and the next  
grand jury should do its full duty and  
bring to justice all offenders of the law.  
Obscene and immoral news-  
papers are a nuisance to the com-  
munity and should be suppressed.  
The man who publishes them is a  
public enemy; it only furnishes that  
which soils the pure, and it panders to  
the taste of the thoroughly vicious.

There is more catarrh in this sec-  
tion of the country than all other  
diseases put together and until the  
last few years was supposed to be in-  
curable. For a great many years the  
doctors pronounced it a local disease,  
and prescribed local remedies, and by  
constantly failing to cure with local  
treatment, pronounced it incurable.  
Science has proven catarrh to be con-  
stitutional disease, and therefore re-  
quires constitutional treatment.  
Hall's Catarrh Cure, manufactured by  
F. J. Cheney & Co., Toledo, Ohio, is  
the only constitutional cure in the  
market. It is taken internally in  
doses of 10 drops to a teaspoonful. It  
acts directly on the blood and mucous  
surfaces of the system. They offer  
one hundred dollars for any case it  
fails to cure. Send for circulars  
and testimonials. Address:  
F. J. CHENEY & Co., Toledo, O.  
Sold by Druggists, 75c.

## CYCLERS NOTES.

—The cyclers are waiting very  
patiently for the bricks to go down  
on Broadway.  
—If circumstances warrant, the Se-  
dalia Cyclers will take part in the  
coming parade during fair week.  
—Capt. Chas. Koeck has his pho-  
tograph taken one day last week and  
will put it on exhibition during the  
fair.  
—Messrs. Rodgers and Rootzinger  
intend selling their wheels this season,  
but will still remain in the club, as  
they will invest in larger ones next  
year.  
—The cyclers are not allowed to  
ride on the sidewalks under a penalty  
of a fine of \$5, on or after this date.  
Anyone purposely riding on a cy-  
cler after he has given the driver  
his part of the road is liable to arrest.  
—Will Bowles was thrown from his  
wheel August 4th, by a man on horse-  
back, who would not give the bicy-  
clist half of the road. One of the fine  
days, some of the road hogs will get  
hurt and they will take warning.

ROUGH ON TOOTHACHE. 15c. At  
Druggists. ROUGH ON CORNS. Hard  
or Soft Corns. 15c.

## A Scrofulous Boy

Running Sores Covered His Body  
and Head. Bones Affected. Cured  
by Cuticura Remedies.

When six months old, the left hand of our little  
grandchild began to swell, and had every ap-  
pearance of a large boil. We poulticed it, but it did no  
purpose. About five months after it became a  
running sore. Soon other sores formed. He then  
had two of them on each  
hand, and as his blood be-  
came more and more impure,  
it took less time for them to  
break out. A sore came on  
the chin, beneath the under  
lip, which was very offensive.  
His head was one solid scab,  
discharging a great deal. This  
was his condition at twenty-  
two months old, when I de-  
termined to cure him. I had  
understood the care of him, his  
mother having died when he  
was a little more than a year  
old, of consumption. I had  
walked a little, but could not  
get up if he fell down, and  
could not move when in bed,  
having no use of his hands. I  
immediately commenced with  
the CUTICURA Remedies, using  
after another bottle, a bony  
matter forming in each one  
of these five deep ones just  
before healing, which would  
finally grow loose and were  
taken out; then they would  
heal rapidly. One of these  
bone formations I preserved.  
After taking a dozen  
and a half bottles he was  
completely cured, and is  
now, at the age of six years,  
a strong and healthy child.  
May 9, 1885. 61 E. Clay St.,  
Bloomington, Ill.  
My grandson remains perfectly well. No signs  
of scrofula, no more. MRS. E. S. DRIGGS.  
Feb. 7, 1890.

**Cuticura Resolvent.**  
The new Blood Purifier, internally (to cleanse  
the blood of all impurities and poisons), and  
externally (to remove the cause), and CUTICURA,  
the great Skin Cure, and CUTICURA SOAP, an  
exquisite Skin Beautifier, externally, (to cleanse  
the skin and scalp and remove the cause of every  
disease and humor of the skin and blood,  
from pimples to scrofula.)  
Sold everywhere. Price, CUTICURA, 50c.; Soap,  
25c.; RESOLVENT, \$1. Prepared by the FORTNA  
DRUG & CHEMICAL CORPORATION, BOSTON.  
Send for "How to Cure Blood Diseases."

**BABY'S**  
Skin and Scalp purified "and beautified"  
by CUTICURA SOAP. Absolute purity.

**RHEUMATIC PAINS**  
In one minute the Cuticura  
Anti-Pain Plaster relieves rheu-  
matic, sciatic, hip, kidney, chest and  
muscular pains and weakness. Price 25c.

## NOT GUILTY.

A Former Sedalia Merchant Ac-  
quitted of an Ugly Charge at  
Springfield.

Albert Silberberg, who did business  
in Sedalia for a short period, is thus  
referred to by the Springfield, Mo.,  
Republican of Friday morning:

The case against Albert Silberberg  
was terminated in the criminal court  
yesterday by Judge Oliver's inspec-  
tion to the jury to bring in a ver-  
dict of not guilty. The indictment against  
him read as follows:

Defendant, Marcus Summerfield,  
L. Friend and John Brown were  
jointly indicted by the grand jury at  
July term, 1889, charged with the  
felony of stealing and converting the  
property of the State of Missouri, to-  
wiz: a certain quantity of goods and  
merchandise of the value  
of \$8,000, the property of Abe Stein-  
berg, knowing said goods to have  
been embezzled stolen and converted  
them to their own use etc.

Pursuant to the court's instructions  
the jury returned the following ver-  
dict: "We the jury find defendant  
not guilty as charged in the indict-  
ment."

## DIED WITH HIS DOG.

Strange Case of Devotion to a  
Dumb Beast—A Suicide.

Aniston, Ala., August 9.—About  
June 15, Robert Edwards dis-  
appeared from home. He had just returned  
from college at Auburn, Ala., where  
he made a very poor mark on account  
of his devotion to his pet dog.

When he came home, his dog was  
locked up for a day or two. He re-  
fused all food until the dog was re-  
stored to him. As soon as this was  
done, Edwards took his gun and dis-  
appeared.

Last night, two young men, while  
hunting two miles southwest of the  
city, ran across a human skeleton and  
that of a dog. The man's left arm  
was clamped around the dog's neck.  
A bullet hole was found in the man's  
skull and one in the dog's head. Ed-  
wards had killed his dog and then  
himself.

Edwards was the son of Ogden E.  
Edwards, manager of the Aniston  
street railway. He came here about  
two years ago from New York. It is  
rumored that a love affair was con-  
nected with Robert's self destruction.

A MAIDEN'S BUSH is a pure, delicate  
and beautiful hue, indicating womanly  
modesty. Ill health and ill looks  
have caused many ladies to resort to  
artificial means of imparting this de-  
licate hue, but nothing equals the  
pleasing daintiness of nature. However,  
there is a means by which nature can  
be brought to your assistance, which  
will maintain your cheeks with beau-  
tiful rosy tints, almost true to nature,  
will brighten your drooping eyes,  
strengthen your feeble system, im-  
parting flesh, roundness and symmetry  
to your limbs, and otherwise, making  
you healthy, hearty and happy. USE  
ENGLISH FEMALE BITTERS and ac-  
complish all the above blessings.

## A GENERAL TIE-UP

All Train Employees on the New  
York Central Railroad Strike.

No Communication for the Time  
Being Between New York and  
New England.

All the Vanderbilt Lines Involved  
—The Action Taken Because  
of Knights of Labor Dis-  
charges—The Offi-  
cials Will Fight.

New York, August 9.—The rum-  
blings of an expected storm among the  
thousands of employees of the New  
York Central and Vanderbilt lines,  
owing to the discharge of Knights of  
Labor and Brotherhood men, broke  
like a flash from a clear sky shortly  
after 7 o'clock last night. All the  
length of the Central was tied up.  
Trains were left by the crews where  
they stood when the order came. Two  
passenger trains were left at Eighty-  
sixth street in the tunnel, one going  
in each direction. The latest report  
is that the West Shore railroad is tied  
up throughout its length, as well as  
the New York and New Haven rail-  
road. Great throngs of people are  
crowded into the Grand Central depot  
trying to have tickets changed and  
asking all manner of questions. No  
one seemed to know how it was or  
who ordered the strike. Even J. J.  
Holland, the labor leader, denied that  
he knew who ordered it, or even that  
it was ordered.

## THE COMPANY WILL FIGHT.

Vice-President Webb, of the New  
York Central, on being interviewed  
by a reporter, said that the strike ex-  
tended only to West Albany. Al-  
men who went out from the employ-  
of the road, he said, would be promp-  
tly discharged in the morning. Those  
men who remained true to the com-  
pany would be well taken care of and  
receive protection as well as all the  
men who came to work for the road.  
The road would take on all good men  
who applied for work in the morning,  
as far as they were needed to fill the  
places of the deserters, and they  
would be guaranteed against all  
harm as well. With great emphasis the  
Vice President announced he would  
fight the strikers to the bitter end. He  
said that the new set of demands, he  
never saw and knew nothing  
whatever about. In effect the de-  
mands are for a minimum day's wages  
of \$1.50; station agents to receive an  
increase of \$5 a month; men in yards  
at Troy and Green Island shall re-  
ceive the same compensation as at  
Schenectady and East Albany; all  
firemen on six wheel connected en-  
gines shall receive 2 1/2c per mile; all  
engineers on same, 4c; four-wheel  
engine—engineers, 3 1/2c per mile; fire-  
men, 2c per mile; for all men over  
time double pay.

## NO CARS RUNNING.

Mr. Webb announced that the fast  
mail had pulled out of the depot at  
9 o'clock with four mail cars, but no  
passengers were attached to the train.  
The vice president further an-  
nounced that no attempt would be  
made to run any trains to-night.  
Everything would be left at a stand-  
still just where the men left off. There  
are no means to get to Albany or  
New England to-night. But the  
opening up of the great avenues of  
trade would be begun to-morrow.

It is announced that the Vice Pres-  
ident will give out an official statement  
of the road's position in the present  
controversy that the people of the  
country may judge who is right and  
who is wrong.

The strike was ordered on account  
of the discharge of certain employees.  
Under the orders every train was  
abandoned, no matter where it might  
be. The 7:10 train for Montreal was  
waiting the signal at the Grand Cen-  
tral depot, when the engineer, fire-  
man and brakeman left it and walked  
out of the depot. Efforts made to se-  
cure men to fill their places were  
without avail. The men on the other  
trains also left them. Travel was not  
only blocked on the Central road, but  
also on the New York and New  
England and New York and Harlem  
roads, which use the tracks of the  
Central road as far as Morris.

There is great excitement at the  
depot, where great crowds of people  
are gathered who expected to take  
trains out of the city. The hotels in  
the neighborhood are crowded with  
disappointed travelers.

## LATER.

New York, Aug. 9.—At 4 o'clock  
this afternoon the New York Central  
was almost completely tied up from  
this city to Buffalo. The only trains  
to run were those carrying the mails.  
The strikers at that hour included all  
the men, except the engineers and

firemen. It was announced that all  
the freight engineers and firemen  
would go out to-night. This would  
leave only passenger engineers in the  
service of the road.

Every brakeman, switchman, engi-  
neer and conductor, except those neces-  
sary to attend to the running of mail  
trains, stopped work on the order of  
the executive board of District As-  
sembly No. 246, Knights of Labor.  
The railroad men agreed to furnish  
enough assistance to allow the mail  
trains to run, but they had deter-  
mined that not a single passenger nor a  
pound of freight should be carried on  
the road after 7:10 o'clock last night.

Secretary Hays of the Knights of  
Labor arrived at 1 o'clock this after-  
noon. He at once sought out Mr.  
Holland and Mr. Valentine, and the  
three had a prolonged conference.  
The Brotherhood of Engineers and  
the members of the local assembly of  
the Knights of Labor have arranged  
for a conference, and everything  
looks as if the engineers would go  
out to-night. This will virtually  
stop all traffic.

London, August 9.—Chauncey M.  
Depew, president of the New York  
Central, is now at Hamburg. Efforts  
are being made to interview him and  
learn his views in regard to the  
strike.

## LITTLE TOM'S ESCAPE.

Thrilling Experiences of a Young  
Alaskan Accused of Witch-  
ery.

San Francisco, August 9.—Capt.  
William Brown, of the United States  
States Army, has arrived here with a  
seven-year-old Indian boy whom he re-  
cently rescued from torture and  
death in the heart of Alaska. Capt.  
Brown went out to explore the  
Stikine mine region and while there  
heard of the escape of an Indian called  
"Little Tom" who was being tortured  
for witchcraft. The boy was a  
member of the Tal-Kan tribe  
and nephew of the chief.  
Last winter the gripe  
killed off many Indians and in some  
silly way the child was held responsible  
for the prevalence of the disease.  
After preliminary torture he was to  
have been burned at the stake, when  
a doughty miner named McGinnis,  
defying the whole tribe, freed the lad.  
After a terrible march of hundreds of  
miles little Tom alone reached a white  
station where he was found by Capt.  
Brown and brought here.

The captain will educate his prote-  
gee, who is very bright, and intends to  
make a lawyer or a missionary of him.

## GROVER IN TRAINING.

The Ex-President Working off  
Surplus Flesh on a Veget-  
able Diet.

Marion, Mass., August 9.—Grover  
Cleveland is growing thinner. He  
has, since he came here, eschewed all  
meats and he and Mrs. Cleveland are  
confining themselves entirely to fruit  
and vegetables. He goes out daily  
to fish and insists on doing the row-  
ing himself. Many say he takes only  
one solid meal a day, and all Marion  
is rejoicing in the fact. He has lost  
over twenty pounds and hopes to  
make it fifty before he is through.  
His walks and rowing tire out his  
companions, and his staying powers  
under his exhaustive exercise cause  
general comment.

## A Serious Run Away.

Marshall, Mo., August 9.—The  
family of J. M. Smith, who lives eight  
miles south of this city, attended  
meeting near Napton last night and  
during their return home, a horse at-  
tached to the buggy in which Miss  
May Smith and her cousin were rid-  
ing, ran away; throwing the young  
lady out of the buggy and down an  
embankment. The horse then ran  
into a mule team hitched to a spring  
wagon, containing the balance of the  
family, and this team, too, ran away,  
and a lady who was in the wagon,  
was thrown and seriously injured. All  
the family were thrown from the  
wagon and the vehicle completely de-  
molished.

## It Was a Success.

Albany, N. Y., August 9.—Ward-  
er Durston, of Auburn state prison,  
was in Albany last night. Asked by  
a United Press representative whether  
the statement that the execution of  
Kemmler was bungled was true, he  
said:

"The execution was a thorough  
and complete success, as the official  
reports will show. The public should  
take the evidence of physicians who  
saw it. It was far superior to hang-  
ing the man. Much of the matter  
telegraphed from Auburn was for  
effect. Strip it of verbiage and the  
result is apparent. It is said that a  
Westinghouse man was at the switch.  
That is false, and can be proved if  
necessary."

## THIS DOES SETTLE IT!

Kemmler's "Spirit" Declares  
That Death Was Painless—  
He Was Amused.

Auburn, N. Y., August 9.—A  
number of spiritualists of this city de-  
termined to settle for themselves the  
question raised by the doctors as to  
the amount of pain suffered by Wm.  
Kemmler during his execution by  
electricity. So they secured the ser-  
vices of a trance medium at a small  
gathering held at the house of a well-  
known citizen.

The medium was not long in put-  
ting himself in rapport with the spirit  
world, and in a short time declared  
himself under the influence of the late  
Mr. Kemmler. In answer to several  
questions Kemmler declared that he  
was greatly amused at the fuss the  
doctors were making about his "tak-  
ing off." He said that, with the ex-  
ception of a slight tingling when the  
current was first turned on him, he  
felt no sensation whatever. His spirit  
was released by the first shock, and it  
was present in the execution room in a  
dissolved state when the burning,  
about which so much has been said,  
occurred, and when the doctors were  
crying out for a second and third  
current under the idea that he was  
not yet dead.

Questioned about his crime and its  
victim, Kemmler refused to answer,  
became angry and refused to talk  
further to the medium.

## Bucklen's Arnica Salve.

The Best Salve in the world for Cut  
Bruises, Sores, Ulcers, Salt Rheum, Fever  
Sores, Tetter, Chapped Hands, Chilblains,  
Corns, and all Skin Eruptions, and pos-  
sibly cures Piles, or no pay required. It  
is guaranteed to give perfect satisfaction  
or money refunded. Price 25 cents per  
box. For sale by Mertz & Hale.

## OUR POSTAGE STAMPS.

How They Are Manufactured  
and Distributed in the  
Interest of Uncle  
Sam.

Some people imagine that Uncle  
Sam's postage stamps are printed in  
Washington, but such is not the fact.  
They are all made by the American  
banknote company in New York city,  
which has the contract from the gov-  
ernment. Uncle Sam pays a small  
fraction over seven cents a thousand  
for them and their manufacture is a  
pretty big job, for during the last  
year eleven hundred millions of them  
were used—representing a value of  
\$27,996,000. Of this enormous num-  
ber 1,412,000,000 and odd were two  
cent stamps.

The stamps are printed from en-  
graved steel plates big enough to  
strike off 400 of them on a sheet at a  
single stroke of the press. After be-  
ing struck off in this way the sheet  
passes beneath a revolving brush car-  
rying mucilage, by which the back of  
the sheet is gummed. The sheet is  
then dried and flattened by a hy-  
draulic press. Next it is run through  
a perforating machine, which is an ar-  
rangement of little wheels revolving  
parallel to each other, and just far  
enough apart to make the perforations  
as one sees them in a sheet of finished  
stamps fresh bought at the postoffice.  
After the perforations have been made  
across the sheet one way by one ma-  
chine, the sheet must pass through a  
second perforating machine for the  
cross perforations, the stamps  
being thus outlined so as  
to be readily torn apart.

In the middle of each machine,  
however, is a knife which cuts the  
sheet in two so that the sheet of 400  
comes out of machine No. 1 in two  
sheets of 200 each, and these are di-  
vided into four sheets of 100 each by  
the knife in machine No. 2. All  
stamps come in sheets of 100 for sale.  
The stamps are now done, and only  
remain to be gone over, inspected,  
counted and tagged in packages of  
100 sheets before being sent out. As  
they are printed the sheets of stamps  
are carefully counted and if one is  
ever so slightly defective, though but  
one stamp is injured or imperfect, the  
sheet is destroyed and carefully ac-  
counted for. It is an old story, by  
the way, that when the English gov-  
ernment wished to discover a way to  
tear stamps apart readily it offered  
\$50,000 for an acceptable suggestion.  
A poverty-stricken but ingenious Brit-  
isher proffered the notion of perforat-  
ing the stamp sheets and received the  
fortune.—Washington Star.

## Hubbard's Rheumatic Liver Pills.

These pills are scientifically compounded  
uniform in action. No gripping pain so  
commonly following the use of pills. They  
are adapted to both adults and children  
with perfect safety. We guarantee they  
have no equal in the cure of Sick Head-  
ache, Constipation, Dyspepsia, Bili-  
ousness, and, as an appetizer, they excel  
any other preparation. W. E. Ward, druggist
